

Purewave Vemi™ Biosynchronizer Bed

Cellular Optimization. Elevated to an Experience.

MSRP: \$65,000 AUTHORIZED SELLING RANGE: \$55,000 – \$65,000

A NEW CATEGORY OF WELLNESS

The VEMI™ Biosynchronizer Bed introduces a new standard in wellness, where the body is no longer treated in parts, but optimized as a complete system. Designed for high-performance environments and premium clientele, VEMI™ delivers a deeply immersive experience that supports recovery, clarity, and full-body balance in a way traditional modalities cannot replicate.

Trusted across elite athletic organizations, advanced wellness clinics, and private luxury environments, PureWave™ has positioned itself at the forefront of next-generation wellness. VEMI™ is the flagship expression of that vision.

WHAT IS VEMI™

VEMI™ stands for Vibroacoustic, Electromagnetic, and Infrared. These three technologies are precisely synchronized into a single system engineered to interact with the body at a cellular level.

As the body rests within the system, calibrated frequencies guide it into a state of calm, alignment, and internal coherence. The result is an experience that is not only deeply relaxing, but fundamentally restorative.

AN EXPERIENCE THAT DRIVES DEMAND

Within a single 30 to 60 minute session, users experience a noticeable shift in how they feel. Relaxation deepens, mental clarity sharpens, and the body begins to reset.

This immediate, tangible experience is what makes VEMI™ so powerful in a business setting. Clients do not need to be convinced. They feel the difference, and that feeling drives repeat usage, premium pricing, and long-term retention.

WHY BUSINESSES ARE CHOOSING VEMI™

The wellness market has evolved. Clients are no longer seeking basic services. They are investing in experiences that elevate performance, longevity, and lifestyle.

VEMI™ becomes a centerpiece within any environment it enters. It attracts attention, differentiates your offering instantly, and creates a premium service that clients are willing to return to again and again.

THE TECHNOLOGY, SIMPLIFIED

VEMI™ combines three synchronized modalities to create a unified biological response:

Vibroacoustic frequencies support deep nervous system relaxation.

Vectored + Traveling Electromagnetic Fields create a synchronized flowing energy system that delivers both precision and full-body activation of cellular coherence.

Infrared frequencies promote circulation and full-body balance.

The Science of Coherence

The body performs best when its systems are aligned and functioning in harmony. When cellular voltage is optimized, the body is able to generate energy efficiently, absorb nutrients effectively, and eliminate waste with greater precision.

VEMI™ supports this state by delivering precisely calibrated high-frequency energy through a patented technology platform designed to interact with the body at a cellular level. Rather than forcing change, it creates the conditions where the body can naturally return to balance and operate at a higher level.

MORE THAN A DEVICE. A PLATFORM.

Most wellness technologies focus on a single function. VEMI™ integrates multiple biological responses into one seamless experience, allowing businesses to offer a level of recovery and optimization that stands apart in the market.

This positions VEMI™ not just as a service, but as a platform that can anchor an entire wellness offering, enhance existing treatments, and create new revenue opportunities.

BUILT FOR SCALE

VEMI™ is designed not only to deliver an exceptional experience, but to create a scalable business opportunity.

- Premium positioning supports strong margins
- Immediate client impact drives repeat usage
- Versatility allows expansion across multiple industries
- Ideal for multi-unit placements and long-term growth

PRICING STRATEGY

VEMI™ is a premium system and should always be positioned accordingly.

MSRP: \$65,000

Authorized Selling Range: \$55,000 – \$65,000

Flexibility within this range should be used strategically for multi-unit deals and key partnerships while maintaining brand integrity.

THE BOTTOM LINE

VEMI™ is not an incremental improvement in wellness. It is a shift in how wellness is experienced and delivered.

For your clients, it creates transformation.
For your business, it creates opportunity.

HOW TO POSITION IT

VEMI™ should be presented as a premium experience that elevates any environment it enters.

- In clinics and spas, it becomes a signature service that increases ticket size and retention
- In athletic facilities, it supports recovery and performance at the highest level
- In private settings, it delivers elite wellness in the comfort of home

Clients are not buying technology. They are investing in how they will feel, perform, and live.
